

Turkish Foreign Policy for Foreigners

Online Training Program

4 days 12 classes X 10 sections

The accelerating global transformation in recent years has created the need for a more decisive basis for the foreign policies of some countries. Especially the strategic discussions on the great powers enabled the words of the new/revived powers to be heard.

Türkiye has recently improved its role in its region and globally with its strategic power accumulation and policies. Claiming that it has increased both its hard and soft power, Türkiye has taken the global transformation process seriously and started to develop policies within this framework. This foreign policy vision, including policies that have been ongoing for a while and newly designed ones, causes different effects such as regional policy development, reviewing bilateral cooperation or getting inspired.

For this reason, DIPAM has designed a program in which it envisages to share detailed information about the issues with students and researchers from all over the world who are interested in these new situations and Turkish foreign policy. The classes that will take place in an interactive way will try to illuminate the points which the participants are especially curious about.

Implementation

The reading list and several resources on the topics will be shared with the participants. Each class consists of approximately 90 minutes, in which the theoretical lecture and the interactive method focused on the participants are used together.

All of the classes will be held online (Zoom app.) and those who attend at least 75% of the classes of a section (9 classes) will be entitled to receive a “Certificate of Attendance”.

Registration

The registration fee for each section is 75 USD. Payments can be made by credit or debit cards on the Online Payment page. The screen shot of the payment page should be sent to academy@dipam.org.

3 scholarship participants among the applicants benefiting from the YTB Türkiye Scholarships Program will be selected for each section. The selection will be made according to the education level and GPA. For the scholarship application, you must send the document stating that you are a part of “YTB Türkiye Scholarships Program” and the current transcript to academy@dipam.org.

Section 1 (September 2022)

General Issues

It is designed as a section where general issues in Turkish foreign policy will be discussed. The trainings in this section generally cover the basic level topics that will understand the foreign policy framework of the Turkish state and government.

In these courses, which are designed as an introduction to the topics that will be discussed in detail in the next chapters, they will also provide answers to questions about the topics.

1. Understanding Turkish Foreign Policy
2. Turkish Normalization Process with The Gulf and Other Middle Eastern Countries
3. Is Türkiye a Bridge or Destination?: International Migration Issue
4. The Latest Situation in Türkiye-EU Negotiations and Relations with Europe
5. Türkiye's Policies to Balance Russia
